## **SERMON LATER – REFLECTION**

1. Do you often find yourself resenting the present because you have forgotten the past? What are some examples of that?
2. How will remembering what God has done throughout history or in your life, , help you to comprehend the way that He wants you to live?
3. What are some expectations from God that you have not followed through on? How have you felt when not meeting those expectations?
4. How have you understood the tension between God's law and grace? Did you ever feel obligated to obey or to live with no regard for the law because of grace?
5. Did you understand before that God's law is an expression of His grace? Why or why not?
