Community of the Faithful

Exodus 20:14

Getting Started:

1. Adultery Defined (Hosea 1:2)

2. Marriage Understood (Isaiah 54:5-8; Genesis 38:26)

3. Covenant Keeping (Ephesians 5:31-33)

Conclusion:

Through the seventh word, God calls us to be faithful in marriage, so that we as a community may bear witness to God's faithfulness to us through Jesus.

prepared by rev. James Chuang

Sermonlater ...

1. Please describe in your own words why it is important to be sexually faithful to one's spouse. What are some other ways that a person needs to be faithful in marriage?
2. What are some habits that you practice regularly in order to be faithful to your family and/or church? How did you learn or develop these habits?
3. In your opinion, what is the most important purpose of marriage? What role should marriage play in the life of the church?
4. What are some factors, either internal (personal) or external (societal), that make it difficult for people to be faithful in marriage? What could a person do to mitigate the influence of these factors?
5. How is marriage a good symbol for Christ's relationship with the church? Please find one or two scripture passages that talk about Christ's wedding or marriage with the church.
6. Do you believe that God calls some people to remain single? What could be the purpose or advantage of being single with regard to God's will for us? How should single people and married people help each other to be faithful in the context of the church?
