## SERMON LATER – REFLECTION

1. Did you ever have to reconcile with someone before? What happened? Was it successful?
2. When did you first realize that you needed to be reconciled to God? How did that thought come into your mind?
3. How should knowing that we have become Christ's righteousness and are now holy, without blemish, and free from accusation impact the way that we live?
4. There are many people in churches who claim to follow Christ, but their profession doesn't change their lives at all. Should there be concern that the way that they live does not match up with what they believe? Why or why not?
5. Do you think there is a lack of saving faith in the church? Why or why not? What can be done about it?
